Shaping the history of brass since 1934

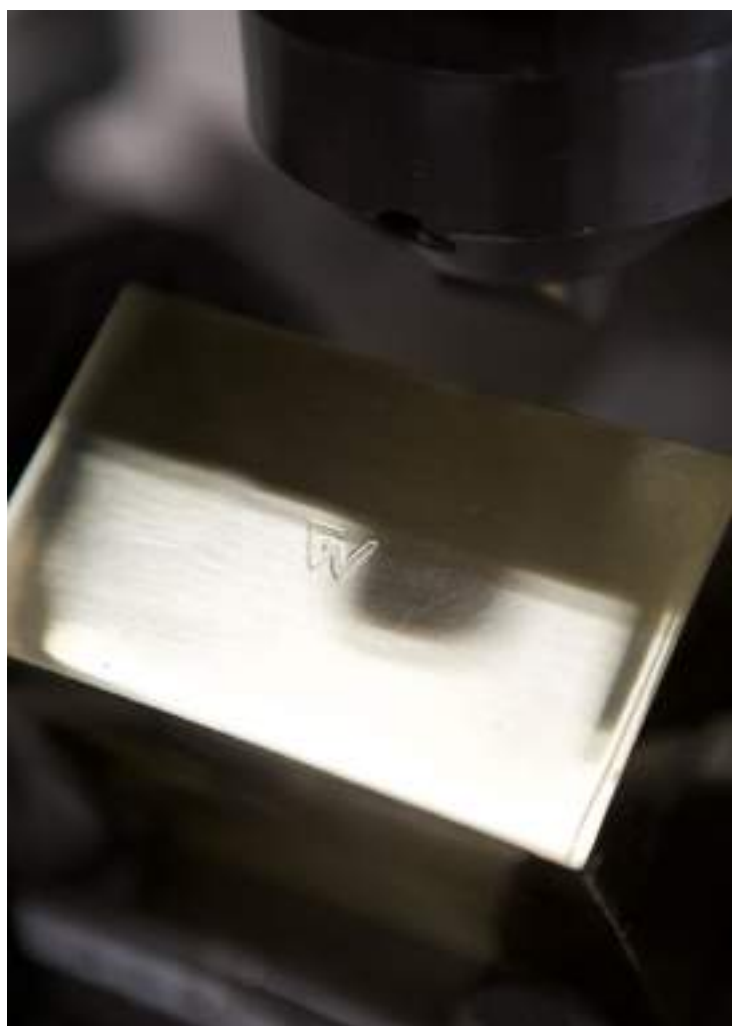

COMPANY HISTORY

It all begins in Barcelona in 1934, when Hans Windisch founds a company for handcrafted decorative articles made from brass. In the 1950s, Fernando Giménez Cuesta joins as a partner, and they set out to make the company a benchmark in bathroom articles made with brass and hand - blown crystal glass. They have one goal: to make everyday life a unique experience. In 1967, the company changes its name from Hans Windisch to Windisch, S.A. They change the name, but the vision remains the same.

Ten years later, Isabel Giménez Cots arrives at Windisch, bringing with her the decision to export their products to more than 80 countries. Nowadays, it's already the fourth generation of the same family that continues to handcraft brass and crystal glass into innovative bathroom articles.

Our essence is the perfect fusion of tradition, quality and experience. The dedication to handcrafted production that distinguishes us translates into the unequalled quality of our products, turning each bathroom into an elegant and unique space. We are a company that not only offers products but a heritage of excellence that is reflected in every piece we create.

VALUES

We are experts with a rich history and a unique artisanal approach. Each piece is designed to bring elegance and sophistication to everyday spaces, where aesthetics and excellence are essential. Committed to innovation, we explore new techniques and trends to offer avant garde bathroom accessories. Rooted in family tradition, we build close

relationships with our clients, valuing personalized attention and tailored solutions. Flexibility defines us—we customize design, materials, and finishes to meet each project's needs. Above all, we are passionate about our craft, creating exceptional pieces that reflect our love for design and craftsmanship.

everyday moments into
something extraordinary.

Finishes

Windisch finishes combine masterful craftsmanship with exceptional variety, adding character and confidence to interior design. Each finish tells its own story with depth, rich colors and a radiant shine. Designed for both functionality and aesthetics, they are built to last generations.

Windisch offers a diverse range of finishes, including galvanic finishes applied through a precise electroplating process. This technique creates highly durable, corrosion-resistant surfaces that retain their brilliant shine over time. Available in many colors these finishes bring a sleek, polished look to both modern and classic interiors.

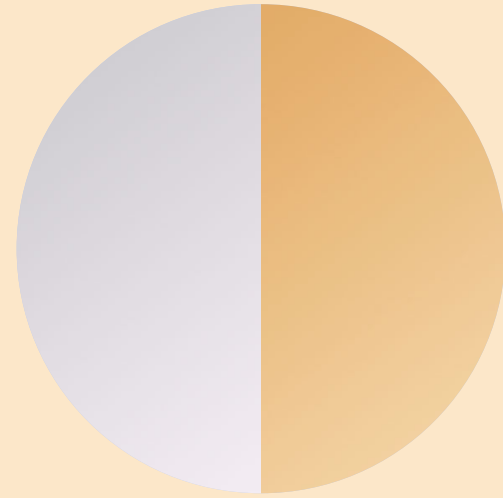

Additionally, Windisch features acid patinas, which use a unique process to create organic variations in color and texture. This method results in a luxurious, aged appearance that adds depth and sophistication, making it perfect for enhancing both contemporary and traditional designs with timeless elegance.

Mirrors

Beauty
Reflecting
Beauty

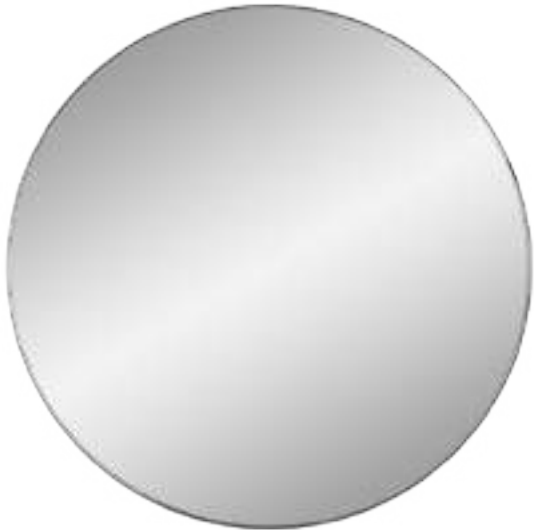

Our personal objects define us
as much as our most intimate
affinities. Surrounding ourselves,
with high quality products and
aesthetic objects, adds value to
our daily routine.
