

Criostone

The fluid effect portrayed on a solid and resistant surface gives life to a dynamic and intriguing design that combines the natural element of movement with the robustness of ceramic materials.

Inspired by reclaimed Burgundian stone, Criostone develops an innovative and original aesthetic synthesis based on the idea of solid glacial formations about to melt.

Criostone is available in four elegant shades and three finishes: soft, silk and mat.

Surfaces and sizes

#6mm | Mat - #6mm | Soft
120x120 48"x48"
60x120 24"x48"

#6,5mm | Silk
120x280 48"x110"
